

Skin Polishing

Home Care Instructions

Exfoliation and hydration are essential to radiant skin. Go from soft to shimmering in minutes.

1. Mix 3 parts **Aloe Facial Cleansing Lotion** to one part **Aloe Comfrey Gel** in a small dish. Warm about 3 ounces of **Aloe Vera Liquid** (do not microwave) to a comfortable temperature (You can use a crock pot or even a sauce warmer).

2. Soak the scrub cloth in the warmed **Aloe Vera Liquid**.

3. Apply the **Aloe Facial Cleansing Lotion** and **Aloe Comfrey Gel** to the skin with a brush or your hands. Once the product has been applied, use the warmed scrub cloth to gently buff the skin in a back and forth gentle action.

Finish by gently patting the skin dry with a nice warm towel. **Apply Aloe Moisturizing Lotion** for a radiant finish.
